## Number Books for Me

Counting With Pictures

**Beginner:** Make a book of numbers that correspond to pictures of everyday items.

**[Tip]:** Start with numbers 1-5. For 4, draw 4 apples.

**Intermediate:** Expand your number book to numbers 6-20.

**[Tip]:** You may need bigger pages for the larger numbers.

**Experienced:** Expand your number book to numbers 21-100.

**[Tip]:** You may need bigger pages for the larger numbers.

**[Brief] Why?** Recognizing numbers as a part of everyday life prepares children for learning math concepts.

**[Detailed] Why?** Students who visualize word problems are more likely to solve complex math problems accurately.
