

Moving from Letters to Words

Shaping Sand, Soil or Snow!

Beginner: Practice pre-writing movement in your environment.

[Tip]: Guide your child's finger through sand, soil, or snow to make shapes used in letters such as circles, lines, and arches.

Intermediate: Practice writing letters in your environment.

[Tip]: Call out letters for your child to write in sand, soil, or snow.

Experienced: Practice writing words in your environment.

[Tip]: Call out words for your child to write in the sand, soil, or snow.

Why is this important? Developing writing skills is acquired through fine and gross motor skills.
